

SPECTRUM HOSE LTD

Handling the Pressure....

Unreinforced Polyurethane Hose

Excellent resistance to petroleum based products. Chemical, corrosion and abrasion resistance. Good resistance to UV. Very flexible, even at low temperatures. Good bend radii. The raw materials used are acceptable under FDA Regulations 175.105 for food use.

Construction: 100% ether polyurethane.

Temperatures: -30 °C to +70 °C. Occasional use up to 100 °C . Brittle point: -70 °C.

Toxicity: Silicone & Cadmium Free. Plasticiser Free. Suitable for food use.

Part Number	Bore (mm)	O.D. (mm)	Wall Thickness (mm)	Weight Kg/m	Minimum Bend Radius (mm)
