

STAINLESS STEEL MIKALOR

A robust and reusable Stainless Steel hose clamp. For use in applications where a heavier degree of clamping than is offered by a wormdrive hose clip.

Fittings can be securely attached to pressure and suction hoses, also flexible ducting. Complies with RoHs EU 20032/95/EC. Full Stainless Steel construction makes the clamp ideal for Marine use and the foodstuff industries where the anti-corrosion properties are vital.

Construction: Stainless Steel AISI304 band. Nut and bolt to ISO strength grades 8 (nut) and 8.8 (bolt) AISI-302 Stainless Steel.
Bevelled edges of the band reduce wear and tear to the hose.

Identification: Size range in mm stamped on the band, 'Super' trade mark and "W4" signifies all Stainless Steel construction.
